LINEAR

Design: Alegre Design

Linear è un kit per panca con trave in tubo rettangolare 80x40 mm e gamba mobile in acciaio verniciato. Il supporto seduta è una piastra sagomata in lamiera e traversi di unione in tubo tondo diametro 18 mm. I braccioli sono anche essi in acciaio. La verniciatura è con polveri epossipoliesteri con spessore medio di 50 µ.

Linear is a bench kit with an 80x40 mm rectangular tube beam and movable painted steel leg. The shell support plate is made of sheet metal and the connecting crosspieces of round tube, 18 mm diameter. The armrests are also made of steel. The paintwork is epoxy-polyester powder with an average thickness of 50 µ.
