CORE

Design: Alegre Design

Core è un kit per panca con trave in tubo rettangolare 80x40mm e gamba mobile in alluminio pressofuso. Il supporto seduta è una piastra sagomata in lamiera e traversi di unione in tubo tondo diametro 18 mm. I braccioli sono in alluminio pressofuso. La verniciatura è con polveri epossipoliesteri con spessore medio di 50 µ.

Core is a bench kit with an 80x40mm rectangular tube beam and movable die-cast aluminium leg. The shell support plate is made of sheet metal and the connecting cross-pieces of round tube, 18 mm diameter. The armrests are made of die-cast aluminium. The painting is with epoxy-polyester powder with average thickness of 50 µ.
